# Horoscope Charts

## Lagna Chart(Birth Chart)

Ascendant or Lagna, is the degree of the sign which is rising on the eastern horizon at the time of birth. The Lagna is the most influential and important sign within the natal or lagna chart. This sign will be considered the first house of the horoscope, and the enumeration of the other houses follows in sequence through the rest of the signs of the zodiac. In this way, the Lagna does not only delineate the rising sign, but also all the other houses in the chart.

## Moon Chart

Moon Chart is an important tool of prediction and the results of planetary combinations are more prominent when the yogas or certain combinations happen in both Moon and Lagna Chart.

## Navmansha Chart(D9)

Navmansha Chart is the most important divisional chart, Navmansha means nine part of a particular Rashi in which each Amsa consists of 3 degrees and 20 minutes.

In the boy or the girls horoscope when Mars, Sun, Saturn, Rahu Or Ketu is in ascendant, fourth house, seventh house, eighth house or twelfth house then it is called Manglik dosh.

# Sadhesati Analysis - I

## What is Sadhesati dosha?

Sadhe Sati refers to the seven-and-a-half year period in which Saturn moves through three signs, the moon sign, one before the moon and the one after it. Sadhe Sati starts when Saturn (Shani) enters the 12th sign from the birth Moon sign and ends when Saturn leaves 2nd sign from the birth Moon sign.

Since Saturn approximately takes around two and half years to transit a sign which is called Shani's dhaiya it takes around seven and half year to transit three signs and that is why it is known as Sadhe Sati. Generally Sade-Sati comes thrice in a horoscope in the life time - first in childhood, second in youth & third in old-age.

First Sade-Sati has effect on education & parents. Second Sade-Sati has effect on profession, finance & family. The last one affects health more than anything else.

## Sun is in your horoscope in Sixth House

You feel a need to serve others or to be of service to them. Or perhaps it's that you simply want to be served yourself. There may be a tendency to wallow in self-pity, seek sympathy for any little thing, or to develop hypochondriac tendencies. You are a faithful, diligent and loyal employee who is usually helpful to fellow employees.

“ Some with this position are domineering and develop a false pride with those they work with or for. You can be an administrator, but you may prefer to be an employee.

If you are in a position of authority, be careful not to be the office tyrant. You are very happy when you are busy and you hate being bored. You take great pride in your work and your workplace. This is where you want to shine and be better than all others. Worry and anxiety, especially over the desire to do things perfectly, can be detrimental to your health.

You need to learn how to relax and not let stress and tension get to you. With this position you should be especially careful to take good care of your physical body.

## Sun is in your horoscope in Gemini sign

Geminians are friendly, clever, talkative, versatile, curious, perceptive, intuitive, and logical. At times they can also be quite contradictory, restless, two-faced, critical, and impatient. Gemini people enjoy and need work that includes a great deal of variety. They love to do several things all at the same time, sometimes making them late for appointments. They abhor boredom.

“ Geminians tend to flit from one experience to another, gathering in all types of information along the way, but seldom getting to the depth of any subject. They go broad and not deep. Persistence is not their strong suit. Gaining knowledge and disseminating it is their real talent. Hence, they make wonderful salespeople or teachers if they stick around long enough to get all the facts instead of only half the story. Even if they do not possess all the facts, since they are never at a loss for words, they will continue with their story as if they did have all the facts.

It is important for a Geminian to seek intellectual satisfaction. Mental stagnation turns them off, so they read extensively and communicate widely in order to satisfy this longing for mental stimulation. This discontent can make them either very ambitious, or it can incline them to jump from one thing to another, searching for the greener grass which never appears.

Geminians usually think quickly on their feet and have the ability to use the right words in any situation. They possess tremendous wit and a good sense of humor. Other people may have difficulty in keeping up with their rapid change of subjects.

“ Because Geminians think so quickly, they often finish other people's sentences for them. This can be most frustrating for the person trying to express their own thoughts. There is a need to learn how to control the tongue and allow slower people to express their own opinions and ideas.

Since Geminians have the capacity to see both sides of any issue, they may fluctuate back and forth between opposing viewpoints. They will usually tend to side with the opinion of whomever they happen to be with at the moment. Then they change as the circumstances change. Indecisiveness is a problem for Geminians.

Geminians are usually emotionally detached. They use their minds rather than their hearts to

find their way through things. Logic and reason are their guidelines. They are able to understand what makes other people behave as they do, but they have difficulty in projecting themselves into the emotional reactions of the person involved.

“ Some of the negative traits that Geminians possess are lack of concentration and focus, undependability, fickleness, indecisiveness, superficiality, wishful thinking, and dreaminess. They can also be pretty good at nagging.

Geminians need to work on getting their mind under control. Their nervous system is highly strung. If they don't learn to control their nerves, they are apt to become ill. The way out of this difficulty is to take the emphasis off themselves and lose it through service to others. Above all, the Geminian needs to learn to channel (control) his energy and his mind.
